List of websites to publish information about the project (to be updated)

The European NAVigator (ENA) digital library

<http://www.ena.lu>

The European NAVigator (ENA) digital library, designed and developed by the Centre Virtuel de la Connaissance sur l'Europe (CVCE), now contains over 16 000 documents on the European integration process. The key post-war historical events and the European organisations are presented chronologically and thematically, and are illustrated by a wide range of archive documents, as well as interviews conducted by the CVCE with people who have been actively involved in European integration. The CVCE is a Luxembourg-based public undertaking supported by the Ministry of Higher Education and Research.”

The Europeana 1914-1918 partners will get in contact with the European Navigator digital library to sound out interest in enlarging to important resources of the First World War, not contained so far.
